# 15.07 Pythagoras' Theorem with Surface Area and Volume

**Instructions:** Please complete all questions and write working out when necessary. Please mark your work by the checking answers.

Question 1 (Year 10 ICE EM 6C Q2a): Find the surface area of the cone. Give answer to 2dp.

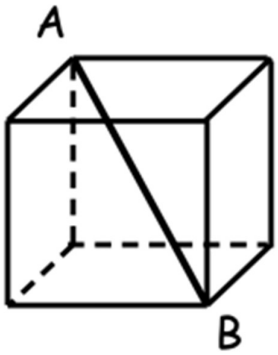

Question 2 (Corbettmaths Q4): Shown below is an open box.

Tim wants to put a 46cm metal rod inside the box. Will the metal rod fit inside the box? Explain your answer.

Question 3 (Corbettmaths Q8): AB is the diagonal of a cube.

AB = 8cm. Work out the volume of the cube. Give answer correct to 3 decimal places.
